

Direct Deposit at Integra First

There are two easy ways to set up direct deposit to your Integra First checking or savings account:

1. Do it yourself.

Complete the form on Page 2 and provide it to your HR department. You may also want to use this form to provide to any pension or investment income services you're linked to.

QUICK TIP: You'll need your Integra First Federal Credit Union checking or savings account number and Integra First's routing number (#291173089) handy for this.

2. Let us do it for you.

We can print a document for you, instead of you filling one out. Then, you will hand it to your HR department. Stop into your local branch, or we can email it.

I will pick it up at a local branch.

Please email it to: _____.

Sample of what document text would say (with Integra First letterhead):

*To whom it may concern,
First Name Last Name has a savings and checking account with us. The account number is XXXXXXXX. The routing number is XXXXXXXXXX.
If you have any questions, please call (833) 694-6834. Thank you.*

Visit the Direct Deposit page at integrafirstfcu.com for details!

Direct Deposit Form

Integra First Federal Credit Union does not require members to use deposit slips for deposits to their accounts. We ask that you accept this form as verification of the member's account with us. Please give us a call at (833) 694-6834 if you require any further verification.
